

Gmail on Android - Add Your Gmail Account to Android Using IMAP

To set up your Android work with Gmail:

- Enable IMAP in Gmail
 1. Sign in to Gmail.
 2. Click the gear icon in the upper-right and select **Gmail settings** at the top of any Gmail page.
 3. Click **Forwarding and POP/IMAP**
 4. Select **Enable IMAP**.
 5. Configure your IMAP client and click **Save Changes**.

The screenshot shows the Gmail settings page for a specific account. The navigation tabs at the top are: General, Labels, Accounts and Import, Filters, Forwarding and POP/IMAP (highlighted with a red circle), Chat, Web Clips, and Labs. The main content area is divided into sections:

- Forwarding:** Includes a button "Add a forwarding address" and a tip: "Tip: You can also forward only some of your mail by [creating a filter!](#)"
- POP Download:** Includes a "Learn more" link and three numbered steps:
 1. **Status: POP is enabled** for all mail that has arrived since 12/3/11
 - Enable POP for **all mail** (even mail that's already been downloaded)
 - Enable POP for **mail that arrives from now on**
 - Disable POP**
 2. **When messages are accessed with POP**
 3. **Configure your email client** (e.g. Outlook, Eudora, Netscape Mail)
[Configuration instructions](#)
- IMAP Access:** Includes a "Learn more" link and the text "(access Gmail from other clients using IMAP)". It features a "Status: IMAP is enabled" section with two radio buttons:
 - Enable IMAP**
 - Disable IMAP**This entire section is circled in red.

- From the Android Home screen, tap on the **Email** icon

- Enter your email address and password, Then tap on **Manual setup**

- Select **IMAP** account

- On the next screen, enter your User name, password (For Incoming server settings) and tap on **next**
